

Re-routing of Bari Node

Bari S. Andrea - Bari C.le passenger link

The intervention involves laying a twin-track line as a variant of the line currently in operation. The new open-cut link, which runs for about 3.2 Km between Bari S.Andrea and the lead-in to Bari C.le station, will be reserved for passenger traffic.

Adjusting Bari Hub

Bari S. Andrea - Bari Parco Nord freight link

The work contemplates building a double crossover freight link from the Bari-Taranto line to Bari Parco Nord freight station, without engaging Bari Central Station. It includes upgrading the Bari Parco Nord yard and building the train formation site located next to the engine shed.
