

Pontremolese line: Pontremolese infrastructural upgrade

Description

The “Pontremolese infrastructural upgrade” Project, besides upgrade work, now activated, concerning the Liguria stretch of the line, (ed) in Tuscany, contemplates completing the dual track on the approximately 18-km-S. Stefano Magra - Aulla - Chiesaccia stretch, including the link with the Garfagnana line, as well as the dual track on the Emilian stretch of the line between Solignano and Fornovo (Osteriazza site, approximately 12 Km long and running partly flanking the existing line, partly along a modified route.
