

Decimomannu - San Gavino track doubling

Description:

The Decimomannu San-Gavino track-doubling runs over 39 km overall, of which approx.26 km are planned as flanking the existing line and 13 km along a modified route, with the building of the new San Gavino station. All 32 level crossings will be eliminated on the entire Decimomannu - San Gavino stretch and Serramanna and Sanluri stations adjusted; Villasor and Samassi stations will be turned into stops.
